

# EAA ESSENZIALI ENHANCED FORMULA

## SOLUBLE ESSENTIAL AMINO ACIDS

### RECOMMENDED FOR

- Endurance athletes needing muscle support and optimal recovery
- Strength athletes and bodybuilders to promote protein synthesis and muscle growth
- Those doing intense and frequent training, to counteract muscle catabolism

- Athletes in a cutting phase or on a low-carb diet, thanks to the zero-carb formula
- Those seeking high-quality supplementation with selected ingredients and Doping-Free Tested
- People with gluten intolerance, thanks to the gluten-free formulation

### WHEN TO USE

PACKAGING: 300 G JAR

### INFORMATIONS

Essential amino acids (EAA) are critical for protein synthesis and muscle maintenance since the body cannot produce them on its own. Ideal for athletes, they help with recovery, counteract catabolism, and support performance. Supplementing them is especially useful during intense training or when protein needs are increased.

### FEATURES

EAA - Enhanced Formula - ESSENTIAL AMINO ACIDS Soluble is a supplement of Essential Amino Acids with Glutamine, Zinc, and Vitamin B6, formulated to support protein synthesis, muscle recovery, and reduce fatigue. With its advanced formula, carb-free and gluten-free, it is ideal for endurance and strength athletes who want targeted and effective supplementation. Zinc contributes to normal protein synthesis, while vitamin B6 supports energy and protein metabolism and reduces fatigue. It is Doping-Free Tested, highly soluble, and has a pleasant natural lemon flavor.

### INGREDIENTS

Branched-chain amino acids (BCAA) [L-leucine, L-valine, L-isoleucine], maltodextrin, L-lysine hydrochloride, flavoring, L-glutamine, acidity regulator: citric acid; L-threonine, L-phenylalanine, L-methionine, L-tyrosine, L-arginine, L-histidine, L-tryptophan, zinc picolinate (zinc), pyridoxine hydrochloride (Vitamin B6), L-cysteine hydrochloride, sweeteners: sucralose, acesulfame K; carotenoids.

### HOW TO USE AND RECOMMENDED DAILY DOSE

Dissolve 2/3 of a scoop (4 g) in about 200-250 ml of water and take according to individual needs. Ideal for supporting protein synthesis and muscle recovery. The product can also be used to supplement the daily need for essential amino acids, even if no physical activity is being practiced.

### AVERAGE CONTENT

	PRI (mg/kg/day)	PER DOSE (4 g)
Leucine	39	800
Isoleucine	20	370
Valine 26	408	408
Lysine Hcl	30	360
Methionine	15 A	120
Phenylalanine	25 B	180
Threonine	15	180
Tryptophan	4	50
Histidine	10	80
Glutamine	-	220
Zinc	-	3 mg (30%**)
Vitamin B6	-	0.7 mg (50%**)

[A\*] The PRI value of 15 mg/kg/day refers to the combination of Methionine and Cysteine, as indicated by the FAO/WHO/UNU report (2007). This product provides only Methionine.

[B\*] The PRI value of 25 mg/kg/day refers to the combination of Phenylalanine and Tyrosine, as indicated by the FAO/WHO/UNU report (2007). This product provides only Phenylalanine.

Supplements should not replace a varied and balanced diet and a healthy lifestyle. Do not exceed the recommended daily dosage. Keep out of reach of children under 3 years of age. Do not use during pregnancy or in children. In case of prolonged use, consult your doctor. Store in a cool, dry place, away from heat sources. Produced in a facility that uses milk-based ingredients (including lactose), soy, peanuts, other nuts, sesame seeds, eggs, shellfish, and fish.

\*The product is tested free of anabolic agents, stimulants, and SARMS.

\*\*NRV: Reference nutrient values (adults) in accordance with REG. EU 1169/2011

### MAIN FUNCTIONS

#### Advanced Formulation

- **Enhanced EAAs:** essential amino acids with Glutamine, Zinc, and Vitamin B6
- **Zero Carbo Formula:** perfect for athletes in cutting phases or those on low-carb diets.
- **High solubility:** easily dissolves in water, making consumption practical and quick.
- **Natural lemon flavor:** pleasant and refreshing.

#### Main Benefits

- **Support for protein synthesis:** thanks to the essential amino acids and Zinc.
- **Optimal muscle recovery:** ideal after intense workouts, helps counteract
- **Reduction of fatigue and tiredness:** thanks to Vitamin B6, contributes to proper energy metabolism and reduction of fatigue.

#### Composition and Dosage

- **Essential amino acids** with BCAAs (L-leucine, L-isoleucine, L-valine) and other key EAAs.
- **Glutamine**, to support recovery and muscle well-being.
- **Zinc** (30% NRV): supports normal protein synthesis and immune function.
- **Vitamin B6** (50% NRV): helps energy metabolism and reduces fatigue.
- **Recommended dosage:** 4 g (2/3 scoop) dissolved in 200-250 ml of water.

#### Quality and Safety

- **Aspartame and saccharin free:** no obsolete artificial sweeteners.
- **Vegan and Vegetarian Friendly:** also suitable for those on plant-based diets.
- **Doping-Free Tested\*:** tested for the absence of anabolic steroids, stimulants, and SARMS
